BY TELEGRAPH.

SCHOONER DAMAGED

By Gales on the Rocks in the Gale.

PORTSMOUTH, N. H., Oct. 27. During the heavy blow yesterday the fishing schooner Emma, of Portland, lying in the lower harbor, dragged her anchor and went on Hicks Rocks, at the mouth of Spruce Creek, where she remained until midnight, when she was pulled off by the tug Mentano, leaking quite badly.

STORE BURGLARIZED.

The Thieves Secure About $900 Worth of Goods.

FARMINGTON, Oct. 27. E. H. Lowell's store at West Farmington was burglarized Saturday night, and about $900 worth of dry goods, clothing, etc., taken. There is no clue to the thieves.

ARRIVED HOME.

Nelson and the Great Stallion in Waterville—Arranging for Reception.

WATERVILLE, Oct. 27. C. H. Nelson arrived home Saturday evening. His string of horses, including the stallion Nelson, came on this morning's Pullman in the best of condition. Extensive preparations are being made for a grand reception to the great horse and his owner in the near future.

YOUTHFUL BURGLARS.

Boys Liberated from Imprisonment.

BIDDEFORD, Oct. 27. An eight year old French boy, who was caught burglarizing J. B. Murphy's store yesterday, was liberated to-day without trial, his father agreeing to send the boy to Canada. Four other small boys implicated in petty thieving were also liberated. The Russian boy who was arrested last night for breaking into Frank Clements' grocery store is still in custody. He will be arraigned this afternoon or to-morrow.

VESSEL IN DISTRESS.

Bath Vessel Damaged in the Blow.

PORTSMOUTH, N. H., Oct. 27. Early this morning the crew of Jerry's Point life saving station discovered a lumber laden vessel anchored off the Point flying a signal of distress. The crew boarded her and found her to be the schooner S. H. Smith, of Bath, with the loss of her [illegible]. The crew rendered assistance and procured the services of a tug and the vessel was brought up to the navy yard where she will discharge her cargo which is for the new naval hospital.

RIOT IN A TOWN.

More Trouble Occurring and the Militia Again Ordered Out.

WAYCROSS, Ga., Oct. 27. A riot, in which two lives were lost a day or two ago, broke out afresh Saturday night when 150 men armed with rifles fired the turpentine still of L. B. Varn and also riddled his commissary with bullets. Varn telegraphed to Gov. Gordon for protection to his property. He has also abandoned the post-office at Varn in consequence of threats against his life. Gov. Gordon has ordered the militia of Ware county to be in readiness to proceed to Varn.

STRUCK BY A WOMAN.

Unknown Man Seriously Wounded—The Woman Arrested.

NEW YORK, Oct. 27. An unknown man quarrelled early this morning on West Third street with Pauline Taban, a French girl. She struck him on the head with some heavy instrument, fracturing his skull. He was taken to a hospital unconscious and will probably die. The woman, who said she acted in self-defence, was arrested.

SUIT FOR LIBEL

Against Papers Brought by Democratic Candidate for Governor.

PHILADELPHIA, Oct. 27. Robert E. Pattison, Democratic candidate for Governor of Pennsylvania, to-day instituted proceedings for criminal libel against the publishers and editor of the Philadelphia Inquirer, the proprietor of the Philadelphia North American and the publisher and editor of the Harrisburg Call. These papers published on Saturday morning an article charging Gov. Pattison with accepting a bribe from the Vanderbilts to sign what were called the South Pennsylvania bills of 1883. The article also charged that $60,000 was paid to Gov. Pattison and Attorney General Cassidy for signing the bill chartering a natural gas corporation.

OVERDOSE OF CHLOROFORM

Causes the Death of a Physician.

BROOKLYN, N. Y., Oct. 27. Dr. Justus E. Gregory, one of the best known physicians of the city, died yesterday from an overdose of chloroform, taken to relieve neuralgia.

BALFOUR'S TOUR.

Comments of the Dublin Express.

DUBLIN, Oct. 27. The Express commenting on Balfour's tour of Ireland, says that the gentlemen and his companions will long remember their journey on Saturday. The fierce storm, which helped reveal the wild and miserable prospects of the country, gave them a vivid experience of the terrible conditions under which the scattered population of the west of Ireland maintain their struggle for existence.

THE SUGAR TRUST.

Last Plan for Reorganization Rejected.

NEW YORK, Oct. 27. The Tribune says the last plan for the reorganization of the sugar trust has been rejected by the Attorney General on account of its illegality. The only way out of the existing complications seems to be the appointment of [illegible]

AN IMPORTANT CASE.

Decision of the Massachusetts Court on Taxation.

Large Amount of Property Involved in the Case.

BOSTON, Oct. 27. The full bench of the Supreme Court this forenoon sent down an important decision in the case involving the legality of the method of taxation of mill property in the city of Lowell. In the case of the Merrimac Manufacturing Company the city assessors valued the property of the company at $3,430,400. The Commissioner of Corporations put the valuation at $2,675,000 and the company appealed to the Commissioners of Middlesex county to revise the assessment. At the hearing before the latter the Merrimack Company, against the objection of the city, was allowed to

Put in Evidence

concerning the valuation which the assessors had put upon similar property of other corporations and individuals, for the purpose of showing that the petitioning company was over taxed.

The Supreme Court says the property of every person must be assessed at its fair value, irrespective of what other like property is valued at and that if evidence was put in for the purpose of getting at the proportionate value as distinct from the actual value, it was an error, and the proceedings must be so amended as to get at the actual value. In the case of the Boott cotton mills the

Court Decides

that the Commissioners did not err in admitting in evidence the record of the tax put on the same property in the previous year, provided that such evidence was admitted merely for the purpose of showing the opinion of the assessors in that year and not for the purpose of fixing the present value. In another case in which the Merrimac Company is complainant, the court holds that the company is rightly taxed upon its water power, it appearing that the water power was assessed with the land, the form of the assessment being "land in cotton yard with water power, $319,036. land in print works yard with water power, $311,857."

In the Case

of the Tremont and Suffolk Mills Company, the court decides that the company was properly taxed upon the land which is under and in the canals passing through its yards, although the water goes in these canals to the mills of another corporation and must be kept open by the Tremont and Suffolk company. The fee of the land is in this case in the latter named corporation.

As to land under another canal, the fee of which is in the proprietors of the locks and canals on Merrimac river the court holds that it cannot be taxed to the Tremont Company, although the latter has a lease of the water for ninety-nine years. The decisions, besides involving a large amount of money are of interest to all mill owners in the State. The opinion is by Chief Justice Field, and is of great length.

PROPERTY OWNERS OPPOSE

The Scheme for an "L" Road in Boston.

BOSTON, Oct. 27. At the hearing before the street commissioners to-day on the petition of the West End Street Railway Co. for a straight route through the centre of the city for a system of elevated roads, Joseph H. Gray, chairman of the standing committee of the Old South church society, J. H. Benton, appearing for F. L. Ames, protested against the plan, as did also Hon. Thomas Russell, trustee of the estate at the corner of State and Devonshire streets, and representatives of the Andrews estate, partly occupied by Jordan, Marsh & Co., and the Gardner estate, occupied by C. F. Hovey & Co.

Mr. W. H. Bragg claimed that if the West End road required the extension the road should bear the entire expense, and George Wigglesworth, appearing for the owners of the property on Hawley and Franklin streets, protested against the destruction of taxable property and the increase of the city's debt for the sole advantage of the railroad company.

H. E. Bolles, representing the estate at the corner of Water and Devonshire streets, made an extended argument in opposition, on the ground that public convenience and necessity did not require the extension.

TRAIN HELD UP.

Two Cowboys Make a Haul—One Arrested.

ALBUQUERQUE, N. M., Oct. 27. A Santa Fe passenger train was held up by two cowboys near San Antonio yesterday morning. One of the robbers has been arrested.

MURDER PREVENTED

By Killing the Would-be Murderer.

SULLIVAN, Ind., Oct. 27. Edward Houck, while threatening to kill his wife with a hatchet, Saturday, was taken from his house by four masked men, who beat his head into a jelly. Houck died yesterday.

LONG STANDING GRUDGE

Wiped Out in a Duel with Guns.

ATLANTA, Ga., Oct. 27. William Sanders and William Martin, of Danielsville, fought a duel with guns Saturday afternoon. Sanders was killed and Martin fatally injured. A grudge of long standing existed between the men, who were neighbors.

SAD ENDING

To An Intended Marriage—Shocking Tragedy

ALLIANCE, Mich., Oct. 27. Charles M. Thorlton shot and instantly killed Fred Robinson Saturday and fatally wounded Miss Myrtle Kerr. Thorlton and Miss Kerr were starting off in a wagon to get married against the wishes of the girl's father. An altercation ensued between the latter and Thorlton, and Robinson, who was in the house, ran out with a pistol in his hand. Thorlton immediately shot him through the heart. Miss Kerr attempted to disarm her lover and was accidentally shot in the side. Thorlton surrendered.

BUSINESS TROUBLES.

Springfield, O., Merchants Financially Embarrassed.

SPRINGFIELD, O., Oct. 27. Amos Whitely & Co. are financially embarrassed. They owe about $200,000.

JURY INSTRUCTED

To Indict All Parties Selling Liquor.

MASON CITY, Iowa, Oct. 27. Judge John C. Sherwin, who was among the first to render a decision in the original package cases, allowing importers to sell in this State, now instructs the grand jury to indict all parties found selling within the State and holds that the Iowa prohibition law is in full force and effect, the recent decision of the Kansas court to the contrary notwithstanding.

THE AMERICAN TARIFF.

Austrian Cabinet Will Think It Over.

LONDON, Oct. 27. The Times' Vienna correspondent says the Austrian Cabinet considers it yet premature to take decisive resolution regarding the new American tariff.

LONDON, Oct. 27. In a letter to the Times Stanley says the Congo state must be allowed to tax trade for its protection and [illegible]

BREWER LOCALS.

The schooner Isaac Orbeton is loading laths at Ayer's mill.

Mrs. E. C. Swett has returned from a visit to Boston and vicinity.

Mr. and Mrs. M. H. Patten have returned from a visit to Boston.

Mr. Frank Dole is making some repairs to the Hamlin house, so called, in South Brewer.

The frame of Mr. Holbrook's new house on Main street is going rapidly up and the roof may be put on soon.

Mr. and Mrs. J. Wyman Phillips, of Orrington, who have been visiting friends in Gloucester, were in the city yesterday on their way home.

Miss Hattie Nickerson, of South Brewer, and book-keeper for Harlow Brothers, returned home the first of the week from a visit to Boston and resumed her duties at the store yesterday.

A man by the name of Bennett, belonging in Orrington, met with a painful accident while at work in Sargent's mill the other day. In some way his hand got across a saw and one of the fingers so mangled that it was necessary to amputate it.

The many friends of Mrs. Jane B. Moody, of this city, will be very sorry to learn that she is seriously ill at the home of her sister in Rockland, to which place she went a short time since in the hope that the change would prove beneficial. Her friends will unite in wishing for a speedy recovery from the attack.

A. McCathren and Charles McCormick, who made some trouble on the electric cars one evening recently, concluded yesterday that it would be better, as they were wanted, to give themselves up than to be arrested, and accordingly presented themselves before Trial Justice Curtis, who placed a fine on them of $5 and costs for McCathren and $2 and costs for McCormick.

The tides were very high yesterday, coming over the tops of wharves which before have been dry. It was one of the highest tides of the year if not the highest, and one peculiarity about it, we were told by a man in South Brewer, was its rising to its highest point, falling a few inches and rising again to its former mark. The same man told a reporter that he saw the same singular phenomenon ten years ago, but could not account for it.

The process of production of green-haired men in Nevada is described by the Virginia City *Chronicle*. There is a curious effect wrought on the hair and beard of men engaged in the Martin White Mine at Ward. The ore is roasted, but no disagreeable perfumes arise from the heating process, yet there is some unknown substance that changes the hair, beard and eyebrows as green as grass. The hair is not injured, but retains its softness and gloss. It is probable that fumes of the green tint of copper contained in the ore change the hair to that color.

A CROWNING GLORY.

Tourists in Europe love to visit the homes of Shakespeare, Milton and Burns and others who have reputations. A good reputation is mightier than the sword, pen or money king, and its halo permeates the dark corners and adulteration and imitation expose them. On its reputation, born of effectiveness, Brussels soap will live for all time and flourish like that green bay tree. Fixed is the reputation of Brussels soap!

Business Items.

HE YELLED KEMP'S BALSAM.

I yell "Take Kemp's Balsam, the best cough cure." I always do when I hear a man cough, and I can't help it. It saved me and it will cure you. I was threatened with pneumonia last winter and it broke it up. It helps the children out when their throats are sore, cures their coughs, and tastes so good. The first dose helps you. So writes A. R. Arnold, engineer on the West Shore Ry., at Canajoharie, N. Y.

dewtfeb18

Every one should remember that by the loss of health, enjoyment and happiness soon follow. Check the slightest cough or cold by using Adamson's Botanic Cough Balsam, according to directions printed upon the label of the bottle.

d&w1w oct24

THE GREAT MAJORITY

of cases of scrofula and other blood diseases are hereditary, and therefore difficult to cure. But we wish to state in the most positive, emphatic manner that Hood's Sarsaparilla does cure scrofula in every form. The most severe cases, too terrible for description, have yielded to this medicine when all others failed. If you suffer from impure blood in any way, take Hood's Sarsaparilla.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

For a disordered liver try Beecham's Pills.

d&w1w 9

CURED BY LETTER CORRESPONDENCE.

Probably no physician of our day has gained such a reputation for curing cases of lingering or long-standing disease through treatment by mail as the great specialist in nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York, discoverer of the well-known remedy, Dr. Greene's Nervura. He uses in his practice only harmless vegetable remedies, and has given especial attention to treatment of patients at a distance through letter correspondence. Consultation in this manner or personally, is entirely free of charge. Any sufferer from whatever kind of disease has the privilege of writing to him a description of his or her case, and he will return an opinion of the case, its curability, and give his experienced advice in regard to its treatment.

His success is something wonderful in restoring the sick to health, and his practice is without doubt the largest in this country. Send for his symptom blank and write him, sufferer, for his advice in your case. This will cost you nothing, and may lead to your cure.

oct26 d&w1t

Estabrook & Eaton will not ADVANCE the price of their Pizarro Cigars until Jan. 1st, 1891. The present high quality will be maintained.

oct16 4w TuThSat

HOLD IT TO THE LIGHT.

The man who tells you confidentially just what will cure your cold is prescribing Kemp's Balsam this year. In the preparation of this remarkable medicine for coughs and colds no expense is spared to combine only the best and purest ingredients. Hold a bottle of Kemp's Balsam to the light, and look through it; notice the bright clear look; then compare with other remedies. Price 50c. and $1. [illegible]

All Sorts and Sizes.

George Eliot's heretofore unpublished letters are shortly to be issued in one volume in England.

Zoe Gayton, a San Francisco woman, is walking across the continent for a purse of $1 a mile, providing she walks more than 15 miles a day. She is in Nevada, about 160 miles ahead of time.

A sealing schooner lately returned to Seattle with seventy-three sea-otter skins as part of its cargo. So rare is becoming this animal that these seventy-three skins brought $10,000.

A citizen of Middletown, N. J., placed quail's eggs under a hen recently, and has a coop full of game. They give their foster mother a heap of trouble, for the disposition to wander and whistle is not only in them, and there is evidenced in their pensive look that they suspect a fraud or a mistake has been perpetrated somehow by somebody.

W. K. Vanderbilt is erecting a beautiful marble villa at Newport. Elaborate carving in granite is being done by Italian sculptors. The scenes to be portrayed are allegorical and represent Neptune, mermaids, and angels, the whole being exquisite workmanship. There are three scenes on as many blocks of granite, and they are to be inserted over the front entrance. The cost of the granite and the work will be at least $50,000.

Several policemen were summoned a few nights ago in Brooklyn, N. Y., to go to a house where burglars were reported. The officers found the female members of the family assembled in the parlor crying. The head of the family was in his room afraid to come out. A search of the house disclosed no trace of marauders, but it was made clear that the residents had taken alarm at sounds produced by a creaking screen door. The noise made the family think burglars were at work.

Of the woods that are chiefly used in fancy cabinet work, ebony comes mostly from Ceylon and Madagascar, and is sold by importers at 3 cents per pound. Satin wood is grown on the island of San Domingo and in Porto Rico. It is one of the beautiful woods, and is described as a "canary yellow." In the log it sells at 75 cents per foot. Tulip wood is that little used. It is imported more for turning and inlaying than anything else. It is found in Central America, and when brought to New York sells for 8 cents per pound.

An English scientist, Mr. John Aitkin, F. R. S., demolishes the popular notion that dew falls from the clouds. It is no such celestial visitor, but an exudation from growing vegetation itself. He has carried out a series of experiments which remorselessly exclude all doubt, for even the leaf inclosed in an air tight vessel has shed from its own veins the bright translucent drop. One statement which any inquirer may verify for himself is that these liquid crystals are always found poised at the extremity of a vein, and in a position where they could not have remained under the laws of gravity if poured downward from the air.

Comedians Make Quick Time.

DE WOLF HOPPER ON A SPECIAL TRAIN BREAKS THE RECORD FROM WASHINGTON.

De Wolf Hopper, the comedian, ran a railroad race against time last week, and won. The course was the Pennsylvania Railroad Line between Washington and Philadelphia, and the time was two hours and forty-two minutes. The quickest time theretofore had been that made by A. M. Palmer's Madison Square Company when it made its famous trip from New York to Washington and back, playing in both cities on the same day. That company's time between Washington and Philadelphia was two hours and forty-four minutes.

Mr. Hopper was accompanied on this trip by Della Fox and Anna O'Keefe, who are the principal feminine members of his Opera Bouffe Company, now playing "Castles in the Air" at the Chestnut Street Opera House, and Miss O'Keefe's mother. The occasion of the trip was a banquet given to the party by officials of the Washington race track, including James Rowe, the starter, there, who is well known, as the trainer in August Belmont's stables.

The party left Philadelphia at 8.30 A. M., on the regular train, and returned on a special train consisting of locomotive and one car, of which Mr. Hopper and the three ladies were the sole occupants. They left Washington at 4.31 P. M. and arrived at 7.13, just in time to make up and dress for their evening performance.

On each side of the car was stretched a huge banner bearing the words: "De Wolf Hopper Opera Company, Philadelphia, to-night!" This attracted much attention on the side track at Washington, and at Baltimore, where a brief stop was made for oiling the wheels. Lest the people at the Baltimore station should wonder at the comparative emptiness of the car, the four people in it kept moving from window to window, to create the impression that the whole company was in the car. A second stop was made at Newport, south of Wilmington, to give the Congressional limited train time to get out of the "block" immediately ahead. At Wilmington the Congressional Limited was passed, and the Hopper special beat the time of that train by twelve minutes.

2:13 1-4 In Double Harness.

BELLE HAMLIN AND JUSTINA LOWER THE RECORD ON THE KITE TRACK.

It was 3 o'clock Friday afternoon when the veteran breeder, C. J. Hamlin, aged three score years and twelve, stepped into the skeleton wagon at Independence, Ia., and took up the reins behind Belle Hamlin and Justina for an effort against their champion team record of 2:15.

Not one condition was favorable to fast time, and few who stood shivering on the lawn were of the opinion that the record would be lowered. The day was cold and raw, and a stiff wind blew up the homestretch and occasional showers from the lowering sky on the big track of the kite-shaped track, where the sprinkling wagons had been at work the night before. The going was heavy and bad.

At the first attempt the great mares were given the word, and they are off at terrific speed, Belle Hamlin, with head up, fairly running away on a trot. When the quarter flag falls the timers mark 33¼, and the shivering crowd grows warm.

Around the far-away turn they speed with perfect stride, and when Hon. Chas. M. Smith shouts "Up" as they pass the half, the hand of the watch split at 1.04½, a 2.08 gait. Now they strike the heavy footing, and their clip is perceptibly lessened. The veteran driver draws his whip and, as it swishes about their ears, the great mares rally again and come on with increasing speed.

The three-quarter flag is passed in 1.38¾ and again they falter in the teeth of the raw north wind. The millionaire urges them on with voice and rein, and finally the whip descends, and Justina goes to a break, they swerve, and Belle is on her tiptoes. A groan from the crowd, and then a shout as Justina is neatly settled by a bit of master reinsmanship; and, straightening out for the finish, they flash past the wire steady and true in the marvelous time of 2.13¼.

Four watches on the quarter stretch agree with those in the stand.

[illegible]

Scrofula

In the most ancient and most general of all diseases. Scarcely a family is entirely free from it, while thousands everywhere are its suffering slaves. Hood's Sarsaparilla has had remarkable success in curing every form of scrofula. The most severe and painful running sores, swellings in the neck or goitre, humor in the eyes, causing partial or total blindness yield to the powerful effects of this medicine

The Worst Type.

"My son was afflicted with the worst type of scrofula, and on the recommendation of my druggist I gave him Hood's Sarsaparilla. Today he is sound and well, notwithstanding it was said there was not enough medicine in Illinois to effect a cure." J. CHRISTIAN, Illiopolis, Ill. Be sure to get

GRATEFUL—COMFORTING.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

Made simply with boiling water or milk. Sold only in half-pound tins, by Grocers, labeled thus: JAMES EPPS & CO., Homœopathic Chemists, London, England.

Whig and Courier.

BOUTELLE & BURR, PROPRIETORS.

C. A. BOUTELLE, Editor.

All business letters should be addressed to Boutelle & Burr, and communications intended for publication should be addressed "Editor of Whig and Courier."

TUESDAY, OCTOBER 28, 1890.

The frantic attempt of the Republicans to show that the McKinley law does not increase prices is really funny.—*Boston Globe*

By the way has the *Globe* printed the letter of the large grocery house in Boston stating that the annual saving to their customers alone under the tariff law will be over $150,000?

Major Bill McKinley isn't likely to be re-elected, but his defeat will be a real loss to the Democrats. He has unwittingly done more to solidify the Democracy and hasten the victory for tariff reform than anything else. Cleveland's great message.—*Boston Globe*

When Mr. Cleveland penned that message to the American people he was an occupant of the White House and desired to renew his lease. He is not writing messages from the White House now. The *Globe's* paragraph seems to hit the wrong fellow.

When Congress meets in December the Democrats will have to employ a different line of argument from that heretofore in use against the Election bill. In South Carolina there is a Democratic split. Tillman leads one faction and Haskell the other. Haskell, who is and always has been a staunch Democrat, represents the best element of his party and the fight is a bitter one. It is under such conditions as these that the truth comes out, hence it is that an appeal has been made to the court for the appointment of Federal supervisors on the ground that unless such appointments are made "a free election and a fair count cannot be had in the State." Here is a confession that fully confirms the position taken by the Republicans and completely wrecks the Democratic arguments made in opposition to the Election bill.

Gov. Hill has returned from his campaign tour in the West and when asked about his visit to Ohio said:

What the result of the election will be in Major McKinley's district in Ohio it is hard to conjecture, and I do not care to express an opinion about Mr. Warwick's chances of beating the Major, but I can say that the Republicans will have a hard fight of it, and if they win it will be by a very small majority. Mr. Warwick fully realizes the uncertainties of politics. He seems to be familiar with every step taken by his opponents, and he has proved himself to be an able and astute man.

This is a very significant statement in view of the fact that the Democrats gerrymandered Major McKinley's district with the idea of making his defeat certain. That the Governor is afraid to predict Democratic success shows that he fully appreciates the magnificent fight the Republicans are making against heavy odds. This interview will not give much comfort to the Democrats in the East.

Truth About Prices.

Free trade organs with singular unanimity are setting forth editorially the claim of higher prices and enormously advancing markets while their news columns and advertising pages show with equal agreement that the claim is false. We quote the following from the New York *Commercial Bulletin* of October 11th, which is a free trade authority and of course cannot be accused of misrepresenting the condition of the market. The italics are ours:

Some most foolish attempts have been made of late to support certain theories, some sound and some not sound, by reference to the recent advance in prices. Within a week there has appeared a solemn argument that the advance was caused by the Silver bill, while another attributed it to the expansion of the circulating medium and another well meaning but foolish argument ascribed the same advance first, last and mainly to the Tariff, which had not then gone into effect, though it had doubtless enabled holders to realize a little higher prices for a comparatively small number of products. Whether the theories which it sought to sustain are sound or unsound, it is always a blunder to strain or distort facts in order to fit them. *The fact is that the change in prices thus far has been so manifestly due to the partial failure of certain crops that it is strange how any other reason should be assigned. But for that single influence there is no evidence that prices would be, on the whole any higher or as high as they were a year ago.*

The quotations of hundreds of articles in October, compared with similar quotations of the same articles a year ago, show an advance of 5 per cent. That is, the aggregate of all the articles, the quantities purchased being measurably proportioned to the actual consumption in this country, would have been $90.71¼ this year, and $90.08¾ in 1889, showing a rise of $4.56. Now, the fact is that the advance in wheat, corn, oats, potatoes and apples represents in the above reckoning a rise of $4.99½ in the aggregate cost, *so that the aggregate cost of all other articles in the table was actually less this year than last.*

There can be little doubt in any reasoning mind as to the cause of the advance in these articles. It is known that there is a large deficiency in the yield of wheat, corn and oats, that the crop of potatoes in the greater part of the country is seriously deficient and that the crop of apples has almost wholly failed, while the fruit crops generally have been deficient. It may be granted that speculative operations have to a greater or less extent affected prices, beyond the legitimate result of the change in supply. Thus the supply of wheat, though supposed to be about ninety million bushels less than it was last year, is supplemented by the large stock carried over from the last and previous years, so that there is but little reason to expect an inadequacy of supply for the home consumption, and for such exports as are likely to be needed by other countries. A deficiency as to corn is less definitely measurable as yet, but it is supposed to be quite large, while the loss in oats, potatoes and fruits may be supposed to fairly justify the change in quotations.

If it be conceded that the change in these few articles cannot with reason be attributed to alterations in the currency, etc., the fact remains that the aggregate of all other articles, whether of farm production or of manufacture, is actually lower at this time than it was a year ago. There has been some advance, it is true, in prices of woolen goods and in certain qualities of boots and shoes, as in a few other products likely to be affected by the tariff. But the price of wool, all qualities considered, is a little lower than then it was a year ago. The difference in woolen goods, when the many varieties are taken into account, is but insignificant. Cotton goods actually cost less on the whole than they did a year ago, quotations being lower both for sheetings and for print cloths, than for the raw cotton. The advance in boots and shoes, again, has been comparatively small, and is traced in the trade directly to the material advance in the cost of leather. This change took place some months ago, and for a considerable time the prosperity of the manufacture was threatened by inability of the makers to get enough higher prices for goods to correspond with the increased cost of the material. There is an entire lack of evidence that the operations of the tanneries, or of the dealers in leather, were influenced either by changes of currency or by other legislation. It may be added that iron products, taken together, are lower in price, on the whole, than a year ago, and the same is true of manufactured products as a whole.

In fact, it is a somewhat curious phenomenon, and one not easily explained, that the really important advance which had occurred in the cost of breadstuffs, vegetables and most fruits, has as yet produced no corresponding effect upon the prices of other products. In this case there seems to be a general tendency toward a lower level, as respects a large proportion of manufactured products, even while prices of the few great staples mentioned are remarkably advanced.

A Test of Southern Elections.

Summing up the situation in the Southern States the Philadelphia *Press* says:

The Congressional elections which take place in about ten days will afford a good opportunity for testing the need of Federal supervision over those elections. If they are conducted fairly, as the opponents of such a statute claim they will be, then there ought to be at least forty Republican members of the House of Representatives chosen in the Southern States. That this number would be elected with a full vote and an honest count there is not a particle of doubt in the mind of any man who understands the situation in that neighborhood. It can, moreover, be demonstrated by figures.

The returns from the present census are not complete enough to make them an authority on the population of Congressional districts. But according to the census of 1880 there were twenty-six districts containing a majority of colored males of voting age in Alabama, Mississippi, Georgia, Louisiana and South Carolina. These districts, with the colored majority in each, are given in the following table:

ALABAMA.		MISSISSIPPI.	
First District,	[illegible]	Second District,	[illegible]
Second District,	[illegible]	Third District,	14,7[illegible]
Third District,	4,1[illegible]	Fourth District,	[illegible]
Fourth District,	[illegible]	Fifth District,	1,5[illegible]
GEORGIA.		Sixth District,	1,8[illegible]
Second District,	3,7[illegible]	Seventh District,	6,4[illegible]
Third District,	2,[illegible]	SOUTH CAROLINA.	
Fourth District,	[illegible]	First District,	3,1[illegible]
Sixth District,	[illegible]	Second District,	[illegible]
Eighth District,	4,[illegible]	Third District,	[illegible]
Tenth District,	[illegible]	Fourth District,	[illegible]
LOUISIANA.		Fifth District,	[illegible]
Fourth District,	[illegible]	Sixth District,	[illegible]
Fifth District,	[illegible]	Seventh District,	[illegible]
Sixth District,	[illegible]		

In many of these districts the colored majority will be shown by the present census to be much larger than the figures given above, while in no one of them is it probable that it has been changed to a white majority.

Each one of these districts, if a full vote and a fair count were allowed, would elect a Republican Representative to the Fifty-second Congress. No Southern Democrat whose name is worth printing will dispute this assertion. But some ex-Republican free traders imagine that it is exceedingly funny to point out that this conclusion can only be reached by counting the colored vote as solidly Republican and then claim that there are no facts to sustain this assertion. The so-called defenders of a bargainized ballot box are less honest than the Southern Democrats themselves. In the preamble reported to the Mississippi Constitutional Convention, now in session, advising the repeal of the Fifteenth Amendment to the Constitution of the United States occurs the following language:

The two races though friendly and homogeneous for all business and industrial purposes, are widely separated by race instincts and prejudices in all political and social matters, and we are without any well founded hope of a change in respect to the political relations of the two races, but in our opinion they will ever be divided in all political contests in the main on race lines, rather than on economic and other questions of common interest to them.

It is impossible to interpret this language in any other way than as an admission that the colored vote remains solidly Republican. Much more evidence to the same purpose could be cited. With the colored vote cast and counted every one of the twenty-six districts in the five States named would elect a Republican Congressman on November 4. The Republican districts in the old border States would increase this number to at least forty and Republican ascendency in the Fifty-second Congress would be assured. With a Federal election law honestly administered this result would follow.

It will be well for the friends and opponents of such a measure to watch the elections soon to take place and compare them with the result which would follow Federal supervision. The friends of such legislation are pretty certain to have their convictions in its favor strengthened, while its opponents will have no other proof that it is not needed than that their party gains unlawfully by its absence.

GRATEFUL—COMFORTING

EPPS'S COCOA

BREAKFAST

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—*Civil Service Gazette.*

Made simply with boiling water or milk. Sold only in half pound tins by Grocers, labelled thus: JAMES EPPS & CO., Homoeopathic Chemists, London, England.

MAINE NEWS.

FROM WINTHROP.

Resignation of Rev. J. B. Herrick.

WINTHROP, Oct. 27. Rev. J. B. Herrick resigned the pastorate of the Baptist church at Wayne and closed his labors yesterday. He has been pastor there for seven years but was obliged to retire in consequence of ill health.

WORSE THAN EXPECTED.

Schooner Emma Badly Damaged.

PORTSMOUTH, N. H., Oct. 27. The damage to the fishing schooner Emma, not Emerald as reported, which ran on Hick's Rocks in the lower harbor yesterday is worse than was first supposed. The keel and rudder post were badly twisted. The schooner is leaking badly and will be beached to-morrow and temporary repairs made in order to allow the schooner to be taken to Portland.

THE PROPOSED RAILROAD.

Camden Already Raised About $11,000 to Aid the Road.

CAMDEN, Oct. 27. Camden's private subscription in aid of the railroad from Rockland to Camden has reached about eleven thousand dollars. The Rockport people do not subscribe as much as was expected on account of the agitation of the Camden people to divide the town.

A FAST PACE.

Belle Hamlin and Justina Trot a Mile in 2.13.

Beating a Previous Record by a Quarter of a Second.

INDEPENDENCE, Iowa, Oct. 27. Belle Hamlin and Justina trotted a mile together in 2.13, to-day, beating their previous record by a quarter of a second.

But for a break by Justina their time would have been 2.12½.

INDIAN AFFAIRS.

Annual Report of Commissioner Morgan, of the Indian Bureau.

WASHINGTON, Oct. 27. Commissioner Morgan, of the Indian Bureau, in his annual report to the Secretary of the Interior, says of the Indian question that there has generally been for ten years or more progress in the right direction. The outlook for the future is encouraging. It has become, says the Commissioner, the settled policy of the government to break up the reservation, destroy tribal relations and settle the Indians upon their own homesteads and incorporate them into National life, to deal with them as individual citizens. The public school system is being rapidly provided whereby every accessible Indian boy and girl of school age is to be

Afforded the Opportunity

of acquiring the rudiments of an English education and the elements of an honorable calling. The Indians themselves are coming to understand the present policy of the government and are showing an increasing readiness, even a desire, to adjust themselves to it. Upon the subject of improvement in the personnel of the service, Commissioner Morgan says that wherever it could be done without too great hardship he has endeavored to remove those who are immoral, incompetent, inefficient and unfaithful. No one is discharged on account of politics or religion and in no single instance, except for the improvement of the service. The total

School Enrollment

during the year was 16,377; average attendance, 12,232. This is but a small fraction more than a third of the school population. At the date of the last annual report there were 133 Indian reservations in the United States with an aggregate area of 116,000,000 acres. During the year about 13,000,000 acres were secured by cession from the Indians and agreements by which about 4,500,000 will be secured are now pending in Congress. There have been 1,494 allotments of land in severalty made on the Yankton reservation, South Dakota, 952 on the Winnebago reservation, 269 to the Grande Ronde Indians, Oregon, 72 to the eastern Shawnees and 291 to those on the Popogo reservation, in Arizona.

SCHOONER PICKED UP

In a Waterlogged Condition.

PORTSMOUTH, N. H., Oct. 27. The British schooner Mary Calmer, Capt. Gilchrist, St. Mark's Island, for Halifax, light, was picked up off the Isles of Shoals this morning in a waterlogged condition and was worked into this port. The captain reports that the vessel leaked about six feet of water.

NO WIRES WORKING.

The 37 Telegraph Operators in St. Paul Leave Work.

ST. PAUL, Minn., Oct. 27. The thirty-seven operators of the Western Union Telegraph Company's office in this city struck at eight o'clock to-night and all the company's wires into the city are idle. The walk-out took place on account of the discharge by the company a few days ago of six operators, who are supposed to belong to the Brotherhood. The discharged men called on Superintendent McMichael, at Minneapolis, this afternoon to try and effect an agreement, but they were not recognized. The strike is the result.

LIBEL SUIT ON TRIAL.

Only One Defendant Appears.

PHILADELPHIA, Pa., Oct. 27. At the hearing this afternoon in the libel case of Mr. Pattison, the Democratic candidate for Governor, against the editors and proprietors of Philadelphia and Harrisburg papers, Charles Heustis, editor of the Inquirer, was the only defendant present, the others being out of the city. Mr. Heustis was held in $1,500 bail.

Ex-Governor Pattison, ex-State Senator Judge J. G. Gordon, and William S. Stenger, ex-Secretary of State, swore that every allegation published in the article complained of was false.

GENERAL ASSIGNMENT

By Planing Mill Proprietors in Buffalo.

BUFFALO, Oct. 27. Clark & Partridge, proprietors of the Queen City planing mill, made a general assignment this morning. The first preferred claims aggregate $29,000; second preferred $20,000; third preferred $43,000.

KANSAS LAWS.

United States Supreme Court to Consider the Case.

WASHINGTON, Oct. 27. A motion was made in the Supreme Court of the United States to-day to advance the Kansas original package case. The question involved in the case is whether it is necessary for Kansas to re-enact its prohibition laws because of the passage of the Wilson act by Congress.

NEW YORK'S POPULATION.

Secretary Noble Denies the Application for Re-enumeration.

WASHINGTON, Oct. 27. Secretary Noble to-day denied the application of Mayor Grant for a re-enumeration of the population of the city of New York.

ADDITIONAL LIGHT

Being Thrown on the Transactions of Broker Robinson.

The Brockton Man Whose Doings are Remarkable.

BROCKTON, Mass., Oct. 27. The C. W. Robinson forgery case continues to occupy the attention of financial circles hereabouts. It was learned to-day that the Randolph National Bank held notes for $2,500 pretended to be made by S. P. Howard & Co. and showing the endorsement of the firm. Robinson, needing the note as collateral, forged a personal note of Henry L. Bryant, of this city. It has been learned that $5,000 in forged notes are held by Boston parties. This morning S. P. Howard, of the firm, telegraphed Purcell & Hageman, of the Consolidated Exchange, of New York, who have done business with S. P. Howard & Co., asking how the firm account stood. He was informed that Robinson was at their place of business last Saturday and

Closed the Account.

It is not known how much money was paid to Robinson. About ten days ago Robinson pressed matters hard for a loan of $10,000 from the Abington National Bank, leaving the signatures of H. L. Bryant, S. P. Howard and B. Goldthwaite. He was refused, as he admitted that he wanted the money to put into a bucket shop. His police court accounts are receiving close attention, but it will be several days before a final statement can be made. Although a large amount of business was conducted at this court for the past six months, Robinson's cash book did not show

Any Entries

since last March. The comptroller of accounts, E. B. Loring, of Boston, was here to-day and hastily looked over the papers. He gave it as his opinion that the city of Brockton will lose quite an amount. No settlement has been made with the city since Robinson took the position of clerk of the court, six years ago, although he paid in several amounts each year. The first year the amount aggregated $5,000 and since then the amounts have been growing smaller, until last year when it was less than half of that sum.

OHIO'S SCANDAL.

An Application for an Injunction Which Came too Late.

CINCINNATI, Oct. 27. An application was made this afternoon for an injunction to restrain Mayor Mosby from appointing members of the Board of City Affairs authorized by the act of legislature passed Friday last. The application was made by three members of the Board of Public Improvements abolished by the same act. The ground of the Application is that the act of the legislature was illegal and void, because it was unconstitutional, being a special act conferring corporate powers and in that it limits the selection of the members to the two leading political parties.

Mayor Mosby to-night said that in the morning he would appoint the board.

FROM WASHINGTON.

News About the Capitol.

Reports About Indians—Desertions in the Army.

WASHINGTON, Oct. 27. The Secretary of War has received the annual report of Brigadier-General John Gibbon, commanding the department of Columbia. He reports the Indians of the extreme northwest in a perfectly peaceful condition and thinks they will remain so indefinitely unless goaded to desperation by the constant encroachments of the whites and their acts of injustice. General Gibbon reports the troops in his department to be in good condition as regards discipline and drill and gives it as his opinion that the various measures taken to decrease the number of desertions in the army will result beneficially.

Their Action Approved.

Secretary Windom to-day formally approved the action of the World's Fair Commission in appointing a board of lady managers for the Columbian exposition with allowance for salary as determined by the board.

KILLING BY ELECTRICITY?

Attempt to Secure Final Action from U. S. Supreme Court on the Law.

WASHINGTON, Oct. 27. The first motion to secure final action from the Supreme Court of the United States on the question of the constitutionality of the New York Electrical Execution law was made in the Supreme Court to-day. It was moved that the pending case, which is that of Japanese under sentence of death in New York, which the Supreme Court is asked to pass upon, be advanced and set down for a speedy hearing. The point was raised that in the case of the Kemmler execution it was demonstrated that killing by electricity is cruel and an unusual punishment and as such is prohibited by the Constitution of the United States.

After the counsel had made the motion Chief Justice Fuller asked:

"Is there any distinction between this case and the case of Kemmler?"

D. O'Callahan, who was the counsel who made the motion responded, "Yes, sir. This distinction; that the carrying out of the sentence in the Kemmler case was not scientifically successful. The petitioner hopes that electricity will be decided to be not a proper mode.

The court took the papers.

STORY DENIED

Of all Plans Being Rejected.

NEW YORK, Oct. 27. The Mail and Express says that John E. Parsons, chief legal adviser of the sugar trust, to-day gave out a positive denial of the story printed in a morning paper that Attorney General Taber had given notice that all plans of reorganizations to be submitted to him for approval had been rejected as illegal.

NEW YORK.

Dealers in Precious Stones Make an Assignment.

NEW YORK, Oct. 27. D. H. Vietham & Co., dealers in precious stones at 2 Maiden Lane, have made an assignment. They were rated at $50,000 to $75,000.

FRAUDULENT BUSINESS

Which Swindled People in Many Places.

DENVER, Col., Oct. 27. Deputy United States Marshal Long and Post Office Inspector Lawrence yesterday arrested James Pierce and William M. Elliott, on charge of running a fraudulent real estate business at Plainfield addition to Denver, thirty miles from here, on the Denver & Fort Worth road. The Plainfield Addition Company began business in September, 1889.

Thousands of circulars were distributed throughout the country from Colorado to Maine. It was announced that the company was giving lots for the price of recording them, say $2.50 and the two cent postage stamp necessary to return the deed. There were 4,970 deeds returned to the company with the necessary $2.50 and a postage stamp, to be recorded. The only house within six miles of Plainfield Addition to Denver is Pierce's own house, located on the property.

The regular fee for recording a deed in Douglass county is $2.50, but by an agreement with Henry Jones, the county recorder, he received but 90 cents for service, and the company pocketed $1.60. By this deal the company cleared nearly $8,000. The recorder made over $4,000.

MASSACHUSETTS.

Boy Sentenced for Placing a Rail on the Track.

LAWRENCE, Mass., Oct. 27. In the Superior Court to-day William Murdock, of [illegible], pleaded guilty to placing a rail on the Boston and Maine track. He did it in the hope of obtaining a reward for notifying the railroad officers of the obstruction. He was sentenced to [illegible] years in state prison.

VERY HIGH TIDES.

Railroad Tracks Covered with Water and Many Houses Flooded.

Men Working a Draw Standing Up to their Knees in the Water.

BOSTON, Oct. 27. The extremely high tide for the past few days has caused much damage along the line of the Boston, Revere Beach and Lynn railroad. At East Boston the tunnel contains water a foot in depth. Beyond the tunnel nothing but water could be seen. The water is clear over the sea wall and at Winthrop Junction everything is completely surrounded with water. The residents are imprisoned in their houses until the tide subsides. At Crescent Beach cellars are flooded and communication is carried on only by boats. Four hundred feet of the outward track of the Beach railroad are

Washed Out

between the Point of Pines and Oak Island. Workmen were at work all day building a bulkhead to protect the track from further inroads.

In Boston harbor the tide was the highest to-day for a long time. At Cambridgeport bridge the water is on a level with the pier where the power house stands. Less than a foot more would have stopped the engine and prevented the draw working.

At the Boston and Maine railroad bridge, the men who work the draw had to stand up to their knees in water. No damage to the docks is reported.

Trains Delayed.

SANDWICH, Mass., Oct. 27. The storm to-day was very severe and considerable rain has fallen, causing very high seas. The morning train from Boston was detained nearly four hours between Sandwich and Sagamore on account of the tide, washing out near the road bed.

Severe Gale and High Tides.

HIGHLAND LIGHT, Mass., Oct. 27. A severe gale has prevailed here since early morning, but shows indications of moderating and shifting to the northwesterly. One three-masted schooner barely escaped destruction on Peaked Hill bars this afternoon. The beaches are cut away in every direction by the heavy sea and high tides.

FIRE RECORD.

Serious Blaze in an Ohio Village.

CLEVELAND, Ohio, Oct. 27. Fire swept away part of the business portion of Andover this morning. It started in Morely & Co.'s store, situated on the northwest corner of the square, and spread both ways. The village has no fire department and an engine was sent from Jefferson. Fifteen frame buildings, all used as business places, were destroyed. The loss will reach at least $30,000, which is insured.

Opera House and Block Burned.

PITTSBURG, Pa., Oct. 27. Fire in West Middlesex, Mercer county, to-day destroyed Burnett's Opera House and block. A large row of business houses on the opposite side of the street was badly damaged. The loss is $35,000, which is fully insured.

Loss of $10,000.

PITTSFIELD, Mass., Oct. 28. Cassidy's frame block on Main street, in Lee, was consumed by fire at midnight. The loss is $10,000, which is covered by insurance. The block was occupied by Farrell's shoe store, Collins' millinery store and on the upper floors by tenants.

OIL CONCERNS

Will Combine, It is Said.

PITTSBURG, Pa., Oct. 27. A special from Findlay, Ohio, says that the general but constant decrease in prices of the Ohio product by the Standard Oil Company has forced the independent producers and refiners of Northwestern Ohio to combine. Their companies and firms represent several millions of dollars and control not less than 23,000 acres of the cream of the oil producing territory of Northwestern Ohio.

NOTICE TO MARINERS.

Buoys Out of Position.

BOSTON, Oct. 27. The captain of the steamer Gen. Whitney, which arrived to-day, reports that the bell buoy on Pollock Rip Slue and the can buoy on Elbow Pollock Rip have drifted from their positions.

The steamer Essex, which arrived yesterday, reports that the whistling buoy at the easterly entrance to Pollock Rip is not in working order.

MRS. CLEMENS DEAD.

The Mother of Mark Twain.

KEOKUK, Iowa, Oct. 27. Mrs. Jane Clemens, mother of Samuel Clemens, who is better known as Mark Twain, died this evening, aged eighty-seven years.

IDENTITY UNKNOWN.

Inquiry in Regard to Arrest of American Citizen in Turkey.

WASHINGTON, Oct. 27. Inquiry at the Department of State concerning the case of the American citizen reported in the despatches from Constantinople as being incarcerated for alleged complicity in the Armenian revolutionary plots, fails absolutely to establish his identity. The government has in its possession the names of several American citizens residing in Turkey said to have been associated with the Armenian movement. The names of two of them are Novigan and Gardiian. From a hasty comparison of the newspaper despatch with the scant information on file at the department it is thought Gardiian might be the man referred to.

BASE BALL.

Brooklyns, 8; Louisvilles, 7.

BROOKLYN, N. Y., Oct. 27. The championship game to-day resulted as follows: Louisvilles, 7; Brooklyns, 8.

FOREIGN NEWS.

Gladstone Reviews the Country's Affairs.

EDINBURGH, Oct. 26. At the meeting of Liberals here to-day Gladstone delivered an address. In the course of his speech he urged the people to closely watch the naval and military expenditures of the government, which he declared had gone beyond the bounds of prudence and propriety. Gladstone blamed Lord Salisbury for sending an accredited envoy to the Vatican. A similar action, he said, has never been taken since the Pope lost temporal power. The sending of General Simmonds to consult the Pope regarding the rights of the Catholic church in Malta came dangerously near supporting the Papal claims to clerical dominion over a part of Italy.

Blow for the Government.

ATHENS, Oct. 27. In the general Parliamentary election held in Greece to-day the government was defeated, retaining only a third of the seats.

An Assumed Name

LONDON, Oct. 27. The real name of the Piercey woman, who is now under arrest in connection with the murder of Mrs. Hobbs, at South Hampstead, is Crichton. It was ascertained that she was married at the age of sixteen, and that her husband is now living at Gravesend. It is believed he visited her Friday. The police are watching him closely.

THE WEATHER.

WAR DEPARTMENT,
OFFICE CHIEF SIGNAL OFFICER,
WASHINGTON, Oct. 27, 8 P. M.

Indications

For the next twenty-four hours in Maine, New Hampshire and Vermont: Decidedly colder; high northwesterly winds; fair, preceded by showers.

Storm signals displayed from Delaware Breakwater to Eastport.

Every one should remember that by the use of health, enjoyment and happiness soon follow. Check the slightest cough or cold by using Adamson's Botanic Cough Balsam, according to directions printed upon the label of the bottle. d&w-w oct24

LOCAL MATTERS.

The Sons of Veterans will hold a campfire next Wednesday evening.

Our Orono correspondent writes: Mr. and Mrs. Charles P. Crowell, of Orono, mourn the death of their infant daughter, Sadie Rebecca. The sad event occurred early Sunday morning. The funeral will take place Tuesday afternoon at two o'clock.

Allan Cressey, of Glenburn, was stricken with paralysis yesterday afternoon in Mercantile Square, while on his load of charcoal in which he deals. He was taken to the Bangor Exchange and attended by a physician. Afterwards he was removed to his home.

The Exchange street depot is to be greatly improved as regards the facilities for lighting, the electric light men now being engaged in putting in five arc and several incandescent lamps, which will be a great addition to the depot, as it has been rather poorly lighted heretofore.

A foot ball team has been organized by the Maine State College students, and regular practice is now being taken. The first game will be played two weeks from next Saturday, when the Bangor High School eleven will go to Orono and try their luck against the collegians.

The ladies of the art department of the Ladies' Auxiliary of the Y. M. C. A. have received from Mr. W. H. Morrow, representative of the firm of Henry E. Frankenberg & Co., New York, through Miss R. A. Webster, a very beautiful painted celluloid paper and letter receiver. They feel grateful for the generous gift.

There was a largely attended meeting at the First Baptist chapel last evening, and Rev. Geo. W. Hinckley, of Oakland, made a very effective address. He will speak again to-night at the same place, on the theme, "How shall I become a Christian." Miss Semple who sang last evening will also be present again to-night.

A new article of export from Maine this fall has been cider apples. The *Reporter* says B. M. Hight, of Skowhegan, has bought up 2,500 bushels of third rate apples, which have been sent to New York State to be ground up for cider. He has been shipping a car load a day of five hundred bushels each, the past week.

All intending to join the class in vocal music in the Young Men's Christian Association rooms should be present to-night at 7.15 o'clock. Miss Carrie Hodgdon is the teacher. As quite a number of young men have expressed a desire for a class in music doubtless there will be a good one. Miss Hodgdon will commence at the very beginning, teaching the class to read.

The junior parts at Colby University, honors based on the scholarship of the first two years, have just been announced. They are as follows: First, (Greek version) W. N. Donovan, South Lyndeboro, N. H.; second, (Latin version) Stephen Stark, Waterville; third, (French version) Nellie S. Bakeman, Chelsea, Mass.; 4th, (English version) H. L. Pierce, West Boylston, Mass.

Mr. Fred A. Shaw, the sculptor, who has been at work upon a model for a bust of General Manager Payson Tucker, of the Maine Central, has completed his work and it receives the highest commendation from all who have seen it, both as to faithfulness to life and as a work of art. It will probably be sent to Mr. Shaw's studio in Florence at once to be copied in marble. Mr. Shaw leaves for Europe in about three weeks.

Mr. Wm. A. Broom, a travelling correspondent for several leading trade journals has during the past week been on a visit to Maine, and tarried for some days in Bangor. The publications represented by him are the *Chicago Timberman, Southern Lumberman, Fruit Trade Journal* and *Railroad Topics*. Doubtless Maine business matters will be rarely treated in his correspondence. His headquarters while in New England are in Boston.

The European trips which Maine bicyclists have taken have proved very pleasant and profitable in the past, and now a new trip is being arranged. Mr. Frank A. Elwell of Portland, is arranging a short winter tour to Bermuda. He already has several persons booked for the trip, which will be for both ladies and gentlemen. The party will leave New York January 29th, and return February 14th. Mr. Elwell is also making preparations for another European trip next summer.

Rev. G. W. Field, D. D., received a letter yesterday from H. S. Barbour, Esq., of Hartford, Conn., inquiring concerning the whereabouts of Rachael Gordon, whom the writer thought might have attended a Presbyterian church in this city, as she resided here in 1864, and belonged to a family who were Presbyterians. Mr. Barbour writes that if living she is entitled to some money which he has in his possession. The person named in the letter is not known to Dr. Field, but if she or her friends should communicate with him it would be to their advantage.

Steamboat Inspectors William Flowers and Charles Staples, Jr., completed their year's list of inspections last week the steamer Fairy at Moosehead Lake concluding the work. During the year they have examined eighty steamers. Six steamers and their boilers have been condemned. No disasters have taken place on any of the steamers which were granted certificates. The inspectors will now be busy on their report which will be submitted to Governor Burleigh as soon as it is completed. The inspectors have had a busy year, and traveled many miles during their tours of inspection.

There is a town not far from this city which has had quite a speedy growth, which seems to have been a healthy one as there is something to sustain it. Two years ago the site of the town of Henderson in Piscataquis county, was covered by a dense forest, to-day it is a flourishing hamlet. Streets are laid out with precision and taste. There are three stores, where all lines of merchandise are kept in stock, and thirty-five to forty dwelling houses, all occupied by families. Four of these houses have been erected the present season, and four others are in course of erection. A new hotel and a church have been erected. Other Hendersons are springing up in the northern part of Maine.

If the numerous hunters who are in Maine at the present time want some sport with bruin they should go to the Reddington region where bears have been feasting on sheep for some time past, much to the diminution of the flocks. Some owners have been quite heavy losers by the hungry bears. A man was walking out one evening last week with a lantern in his hand when he met a bear which came toward him. He lifted the lantern to strike the animal when bruin cuffed the lantern with his big paw, knocking it several rods, while the man took to his heels and did not stop running until he met several of his fellow workmen. The bear was shot afterwards and found to be an exceedingly large one.

Depredations have already commenced at the deserted summer resorts by the detestable petty thieves who are constantly preying upon these localities. It is reported that burglars have been at work in the cottages at several places, entering by breaking in doors and windows. In one the thieves had evidently gone to bed and spent the night at the house. As the owners of the houses which were rummaged are away it has not been learned how much had been stolen. As no valuables are left at the summer cottages no great hauls can be made, but the work of the thieves is very annoying to say the least.

MAINE CENTRAL NOTES. Commencing Sunday the train leaving Portland over the Maine Central road at 1.55 P. M. and arriving at 12.30 P. M., will carry passengers to and from Rockland and the Penobscot Shore Line railroad (formerly the Knox & Lincoln) daily, including Sundays.——A general order has been issued by General Manager Tucker, giving notice of the appointment of Mr. H. W. Waldron as Division Superintendent of the Coos Division of the Maine Central road. The appointment took effect yesterday. When the road now being built from Quebec Junction to North Stratford is finished, Mr. Waldron's division will embrace the line from Quebec to Lime Ridge, and in addition to the duties as Division Superintendent he will act as station agent at Lancaster, when that important station is opened for business by the Maine Central. For the present the headquarters will be at North Stratford, but later at Lancaster, N. H.

AMUSEMENTS.

M. B. Leavitt's "Spider and Fly."

It was "standing room only" at the Opera House last night upon the occasion of the presentation of M. B. Leavitt's spectacular burlesque pantomime "Spider and Fly," and the audience was well entertained by the various features presented for its amusement. The company is of good size, its members artists in their line, the specialties are varied and interesting, the ballet active and smiling and the scenery good. These advantages, together with the songs, dances and "business," made it a very creditable burlesque pantomime. The "Sailors' Hornpipe" and "Spanish Tambourine" dances, the fun of the twin brothers, "Harthur" and "Enery," the English footmen, the acrobatics of Will Segust, the contortionism of Miss Stella Lucida, the "Jockey" dance, and dance by the four Leyton Sisters, from the Gaiety Theatre, London, and the skilful juggling by "Zamo," song by Miss Verona and Mr. Ryley, song and dance by Will Dennis, the "Serenade" and march by the "Queen's Volunteers" are interesting and amusing parts of the production.

A second presentation will be given at the Opera House to-night.

The Japanese Village.

The Japanese Village will open at Norombega Hall this evening for a few days' engagement and many will doubtless avail themselves of the opportunity to witness the features of the unique and pleasing entertainment which will be presented at the hall. There will be Japanese men, women and children in native costume and they will illustrate and reproduce with all the paraphernalia the arts, sciences and mysteries of the Orient. The hall will be decorated with beautiful designs. The Shaffers will give an entertainment of a large number of musical selections on various instruments, and there will be sleight of hand tricks and ventriloquism, together with a Punch and Judy show. The entertainment provided in the hall will have to be seen to be appreciated.

The Two-Headed Nightingale.

The box office is now open for the sale of tickets for the Two Headed Nightingale Comedy Company. In addition to Millie Christine, the two headed girl, who will dance on her four feet and sing with her two mouths, there will be a strong variety entertainment consisting of specialties by Whitney and Leonard, Irish comedians, Willett and Thorn in farces and sketches, Hayden and Hetherton in musical olio, Queen Hetherton in wing dancing and the cow boy pianist and his wife, the lady cornetist.

She has been at Portland lately and the *Argus* says of her:

"This living curiosity is viewed with wonder by the audiences that gather at Portland Theatre. It is indeed a remarkable freak of nature for a human being to be provided with two heads, two pairs of arms and four lower limbs. Millie is thus remarkably constituted, and she has the perfect use of them all. She is an intelligent woman, and possesses several accomplishments, being a fair vocalist, waltzes gracefully and talks in two different tongues at the same time. Miss Christine is not the only attraction, but she is assisted by a company of good specialty people, who furnish a pleasing entertainment."

Notes.

M. Remenyi, the famous violinist, has just signed a contract with an American manager for a six months' tour in the United States and Canada, commencing Sept. 15, 1891.

The Bostonians, who have appeared in this city, have surpassed all their former experiences in the New England tour of the present year. They sang in Meriden, New Haven, Hartford and Bridgeport the last week, and had overflowing houses at every point, the new opera "Robin Hood," having proved a winning card, wherever it has been heard. The company was to have appeared in Worcester last evening, and then goes due West, bound for 'Frisco and the Pacific coast, on its fourth transcontinental tour.

ORONO NEWS.

The Autumn Festival—A Small Boy Severely Scalded by Hot Water.

Posters are out announcing the annual "Autumn Festival by the Ladies of the Orono Universalist Society," writes our Orono correspondent, at the town hall next Wednesday and Thursday evenings. Delightful entertainments will be given each evening. A choice variety of fancy and useful articles will be on sale.

A six-year-old son of a Mr. Sencia fell into a pail of boiling hot water on Saturday afternoon, scalding himself very severely, although it is thought not dangerously so. It seems his mother set the pail or small tub of boiling water on the floor and then stepped out of the room for the mop. It is presumed the little fellow fell in backward, as he was found sitting in the tub when his mother came back, with his head and feet hanging over the sides.

The Autumn Festival.

People are given the opportunity of seeing "The Jack Trust" this evening in City Hall to be given at 8 o'clock during the Autumn Festival. It is a piece full of action and wit and interpreted by the best talent in our city offers an attraction that will probably not be surpassed this winter.

No suppers will be needed at home to-night for every one will want to go to City Hall where supper will be served from six to half past seven. Chicken salad and hot coffee will make a tempting supper, and for those who desire simpler fare there will be oysters and cold meats to please the most fastidious.

EYE AND EAR INFIRMARY.

Meeting of Trustees in Regard to the Worthy Institution.

A meeting of the trustees of that worthy institution the Eye and Ear Infirmary, which has just been organized, was held at three o'clock yesterday afternoon in the Common Council room, City Hall, to take further action in the necessary business matters. Hon. Lysander Strickland was chosen president of the board of trustees and A. F. Stetson, Esq., secretary.

The following executive committee was chosen: Dr. T. U. Coe, F. A. Wilson, John L. Crosby, Charles V. Lord and I. K. Stetson, Esqs.

A visiting committee was chosen as follows: Mrs. H. E. Prentiss, Mrs. Caroline R. Mason, Mrs. H. L. Griffin, Mrs. John S. Sewall, Mrs. J. G. Blake, Miss Pickering, Mrs. Lysander Strickland, Mrs. C. S. Lunt, Mrs. N. E. Bragg, Mrs. Hannibal Hamlin, Mrs. T. U. Coe, Mrs. Moses Giddings, Mrs. G. W. Field, Mrs. W. B. Hayford, Mrs. H. S. Griswold and Mrs. E. L. Crosby.

Dr. Sumner Laughton and Dr. D. A. Robinson were elected consulting surgeons, and Dr. E. T. Nealley was chosen pathologist. The matter of obtaining a suitable room for the infirmary was left to Dr. T. U. Coe, chairman of the executive committee, who will at once procure suitable quarters. It is probable that a good sized room on the second floor of Kenduskeag Block, which has been used in connection with the Public Library, can be obtained and it will be secured if possible. The location is a very convenient one, the room being up only one flight of stairs, and seems to be well adapted in every way for the uses to which it will be put. As soon as it is obtained, as now seems probable, it will be suitably fitted up with everything that is necessary to the most successful work.

Before anything can be done, however, a sufficient fund will have to be subscribed in order that there may be assurance that there will be good financial backing. As the institution is wholly of a charitable nature, this fund will be obtained by voluntary contributions and a subscription paper will soon be put in circulation among our citizens and all who are so disposed will be given an opportunity to give their aid. It will not be necessary to urge anybody to give as the plan clearly commends itself to everybody, and there will doubtless be a ready and hearty response when the time comes for the request for contributions. Such an institution ought not to lack for funds and our charitable people will see that it does not.

Many a poor person is incapacitated from earning his or her own living, or at least is unable to do the full amount of work he or she would be otherwise capable of doing, by some disease of the eye or ear, both of which are greatly neglected. The infirmary, which will provide free treatment to the poor, by the best medical and surgical skill, will do a grand work in alleviating suffering and in making better and happier citizens in that they will be enabled to do more for themselves.

It is to be hoped that the necessary fund may be quickly raised, as the sooner the infirmary is in good working order the better. Those who have the matter in charge are confident of the success of the institution which will be so beneficial to many.

CENTRAL CLUB LECTURES.

The First Lecture to be Given on Monday, November 3d.

The Central Club lectures this year will be of that very profitable character which has marked them in the past, and a list of celebrated lecturers has been obtained. A glance at the following names and subjects of lectures will show what a rich treat is in store for Bangor people:

November 3d, Rev. E. E. Hale, D. D., "A Reading; My Double and How He Undid Me;" November 17th, George Makepeace Towle, "Carlyle;" November 18th, Mr. Towle, "Victor Hugo;" December 1st, a concert; December 15th, Rev. E. G. Porter, "Australia;" December 29th, Prof. E. C. Smythe, "Martin Luther;" January 12th, Mrs. Mary A. Livermore, undecided; January 19th, Rev. Reuen Thomas, D. D., "Christ or Mars, Which?" February 2d, Mrs. J. Ellen Foster, undecided; February 16th, Pres. A. W. Small, undecided; March 2d, Pres W. D. Hyde, "Qualities of Leadership;" March 16th, concert. Tickets are now on sale.

SUPREME JUDICIAL COURT.

October Term, 1890.

HON. THOMAS H. HASKELL, Justice.
JOHN A. HAYDEN, Reporter.
WILLIAM F. REED, Sheriff.
CHARLES F. SWEET, Esq., Clerk.

Monday, October 27th.

ON TRIAL.

Benjamin B. Thatcher vs. Maine Central R. R. Co.

On April 16, 1890, plaintiff owned and was possessed of a large amount of pine box boards and timber of the value in all of $17,630.00 piled on land leased by him in the town of Milford, adjoining the railroad of said defendant corporation, and that on that day said box boards and timber were destroyed by fire, that was caused as plaintiff says by cinders from a locomotive of said corporation. Case withdrawn from jury and continued.

Chas. P. Stetson for plaintiff.

Wilson & Woodard for defendant.

Court appoints Thursday next as divorce day.

Died in the Woods.

It will be remembered that an item in THE WHIG announced the losing in the woods of Deputy Sheriff Charles L. Pickering, of Lincoln. An item concerning the finding of his body was mislaid Sunday which accounts for its present tardy appearance. It seems that Mr. Pickering started Wednesday to go to the camp of Bradbury Bros. on the Upper Land Brook, above Burlington, about twenty miles from Lincoln. He tied his horse about two miles from the camp, took dinner at the camp and after summoning a witness for a case on trial at that time in this city started on the return. As he did not appear at his destination it was rightly concluded that he was lost in the woods. The next afternoon Mr. Bradbury and another gentleman started for Burlington and found Mr. Pickering's horse where he had tied him. They searched for him all that afternoon and into the night, without success.

The next day further search was made and this time it resulted in finding Mr. Pickering's body. It seems that after leaving the camp Mr. Pickering, when about half a mile this side of the camp, took the wrong road and wandered about in the woods not knowing the way. He was found where he had evidently fallen from a log, only a short distance from the main road. The body was taken to his home. Much credit is due to Mr. Bradbury and the others who took part in the search for their persistent and finally successful endeavors to find Mr. Pickering. The deceased was born in Milton, N. H., September 24th, 1830, and was consequently over sixty years of age at the time of his death. He was a good citizen and one who enjoyed the respect and confidence of all who knew him. His death will be mourned by very many.

Death of Mr. W. S. Pearson.

The Minneapolis *Journal* in an item announcing the death of Mr. W. S. Pearson, clerk for the Minneapolis school board, formerly of this city, has the following:

He came to Minneapolis from the latter point and taught in the night schools while he was reading law in the office of Seagrave Smith. He gave up the law to take the position that he held at his death—clerk of the school board. He soon attained a knowledge of the schools and of their needs that made him very valuable to the board. He was a member of the Odd Fellows and of the Modern Woodmen of America. Last winter symptoms of Bright's disease began to manifest themselves. This disease, complicated with heart trouble, caused his death. Mr. Pearson was a man who attracted people. He had numberless friends in the city, and the people whom he went out of his way to help are numerous. During his sickness several men for whom he had secured work, or whom he had befriended in an hour of need, called at his home and offered to turn over to him the better part of their wages or of their salaries, if he needed it. He had hardly an enemy, though he was a man of positive convictions and spoke out fearlessly what he thought was right. To him, in part at least, is due that economic and excellent administration that has made the schools of Minneapolis noted. He leaves a wife and one child, a daughter two years of age.

Municipal Court.

Monday, Oct. 27.

Fred Haskell and Michael Driscoll, for drunkenness, $3 and costs each.

Our Own Folks and Other Folks.

Mr. J. W. Somes, of Mt. Desert, was in the city yesterday.

Mr. C. E. Rogers, of Old Town, was in the city yesterday.

Mr. J. F. Whitcomb, of Ellsworth, was in the city yesterday.

Mr. B. F. Osgood, of Kingman, is in the city for a short time.

Hon. O. D. Baker, of Augusta, is in the city at the Bangor House.

Mr. I. S. Carr, of Sangerville, was in the city yesterday on business.

Miss Hattie Weller has returned from a visit of a few weeks in Boston.

Leslie C. Cornish, Esq., of Augusta, is in the city at the Bangor House.

Mrs. P. M. Arnold and Miss Arnold have returned from a visit to Massachusetts.

Mr. and Mrs. J. R. Emery, of Bucksport, were at the Bangor House last night.

Mr. Hayward Pierce and Miss Kate Pierce, of Frankfort, were in the city yesterday.

Mr. C. L. Snow and Mr. J. Fred Snow returned yesterday from a few days visit to Boston.

Mr. Charles D. Shaw, of Greenville, was in the city yesterday at the Penobscot Exchange.

Rev. and Mrs. A. C. Fernald, of Mt. Desert, were in the city yesterday at the Penobscot Exchange.

Mrs. F. W. Lincoln and Miss Josie Lincoln, who have been visiting friends in Boston, have returned home.

Miss Haskell, of this city, and Miss Haskell, of Garland, returned on the boat after a visit in Boston and vicinity.

Mrs. H. G. Rowe, of this city, has gone to Moosehead Lake for a short visit with her daughter, Mrs. F. D. Bigney.

Miss Alice Bucknam, teacher of the second class at the Abbot Square Grammar school, is absent on account of illness and her place is being taken by Miss Littlefield.

Excelsior Lodge, Daughters of Rebekah, will give a supper and dance at Odd Fellows' hall next Friday evening. Supper will be served from 5.30 to 8 o'clock and dancing will commence at 8.30 o'clock. A very pleasant affair is anticipated.

Mr. M. H. Andrews' private elementary class in dancing for ladies and gentlemen will meet for the first lesson this evening at Andrews' Hall, at 7.30 o'clock.

New Advertisements.

New buckwheat, and maple syrup from Stetson sealed up in the orchard while hot, and old ground flour of all grades cheap for cash, at Thompson & Kellogg's, Central street.

There will be a stated meeting of Rising Virtue Lodge, F. and A. M., this evening at 7.30 o'clock.

See notice of City Committee on Accounts and Claims.

SAVED FROM DROWNING

By a Queer Presentiment—Stranger Than Fiction.

An unaccountable and sudden longing to visit Robbinston seized John Lockran, as he was cutting wood on his farm at Bayside, N. B. He threw down his axe and started for his home, but changed his mind and returned again to his labors. Scarcely had he begun to chop when the impulse to cross the river came stronger than before. This time he yielded to it and hastening to his home, got himself in readiness for his trip. A few minutes afterwards he launched his dingy, and began pulling for the American shore.

After getting out a short distance he noticed a sail boat putting off from Robbinston with three men in it. There was a smart breeze blowing, and the sail was double reefed.

Mr. Lockran observed that the boom occasionally struck the water as the boat careened over, and he feared that she would capsize when she struck deeper where the wind was stronger. He kept on pulling away, however, and in a minute or two afterward was startled by a series of loud screams.

Looking around he saw the mast of the sailboat sink out of sight in the river, leaving the three men struggling in the water. He was then about half a mile to windward of the men, and, realizing that their lives depended upon his exertions, he pulled with all his might toward them.

The first one he reached was a man named Murphy. He was lying across an oar, limp and almost lifeless, the waves dashing over his head. Lockran succeeded in dragging him in his boat. The poor fellow was more dead than alive, and would have perished had he remained in the water a few seconds longer.

While Murphy was being rescued, his two companions, whose names were Rice and Lockran, were clinging with desperation to a short piece of plank which had been in their boat.

They were benumbed with the cold, and were almost drowned by the water which was washing over them. When the rescuing boat reached them, the greatest difficulty was experienced in preventing the two men from upsetting it in their desire to save themselves. Rice was induced to hold on to the gunwale while his companion was pulled in on the opposite side. He was then pulled in safely, and the three half drowned men were taken to the shore. The casualty had been caused by their boat filling from the stern as they were bringing her around.

TWO NEW VESSELS.

Coming Trials of the Vesuvius and Concord.

A New York despatch says that while Secretary Tracy was at the navy yard the other day he was called upon by George W. Quintard, one of the assignees of the Delaware River Shipbuilding Company (John Roach & Sons), relative to the coming official trial of the gunboat Concord, built by that firm.

Mr. Quintard and Secretary Tracy agreed that the trial should take place this week, but, contrary to the general expectations, it will not be made on the Delaware river. Neither will it be made over the same course as was that of the Philadelphia in in June, on the southern coast of Long Island.

It is deemed best, owing to the treacherous weather to be expected at this season of the year, and the fact that the water of the Delaware river is shallow, to have the trial made in the sound. The reason for this is that there is a certain percentage of retardation in speed, or drag, where a trial is made in shallow water. The Concord will come to New York, probably on Tuesday, and go up as far as Glen Cove, where she will anchor and be made ready for the trial. It is not determined yet just where the course will be in the sound, nor its exact length.

This will be laid out by the trial board, which consists of the following officers: Capt. Silas Casey, Commander C. A. Batcheller, Commander Royal B. Bradford, Chief Engineers A. T. Kirsted, R. B. H. Wharton, and Naval Constructor W. H. Varney. The vessel was nearly ready for her trial last week, but there has been some delay caused in getting the special quality of coal required.

The vessel is almost a duplicate of the Yorktown, which recently returned from a cruise with the squadron of evolution. She is, however, required to have 400 horse power more than that of the Yorktown, which was 3,000. She was contracted for August 8, 1888, at a cost of $490,000 for hull and machinery complete. Her keel was laid May 8, 1888, and she was launched with her machinery practically all in place on March 8, last.

She made an unofficial steam trial of four hours on August 11th, and everything worked smoothly. The contract makes no specific conditions as to speed, but allows for a premium of $100 for each horse power in excess of 3400, or $100 penalty for each horse power deficient of the guarantee.

Much has been said concerning the marked falling off in speed at the trial of the dynamite cruiser Vesuvius at Newport two weeks ago. The speed in May was 21.64 knots and hour, but at Newport it was only 20 knots.

The officers of the naval war craft say that two circumstances must be taken into consideration before a condemnation is uttered against the screw propellers.

One is that at the trial in May, which was the official one of the contractors, the displacement of the vessel was only about 800 tons, and at the last trial (and now) it is about 1,000 tons. In other words, she was not in full sea trim when she made her first official trial.

Business Items.

Save the boys and the girls from scrofula and other forms of impure blood by giving them Hood's Sarsaparilla.

Will remove dirt, J. C. Davis' Old Soap.

Absolutely Pure.

A cream of tartar baking powder. Highest of all in leavening strength.—*U. S. Government Report, Aug. 17, 1889.*

[illegible]

—FOR SALE BY—

CHAS. [illegible]

THE COMING WOMAN!

Will not have her ears pierced for earrings, says a newspaper writer. This is rather a distressing view, if true, to the jeweler, but that generation of the craft can console themselves with the hope that the women who have got here will continue to adorn their auricular appendages with our Solid Gold Jewelry of any description, to order, on approval, at

24 [illegible] ST., - JNO. TEBBETTS & [illegible]

NOTICE.

I have made arrangements with James [illegible] for [illegible]

[illegible]

A Curious Find in a Field in Aroostook County.

Activity Noticed in the Ship Building Line.

News of the Day in a Nutshell from All Over Maine.

Androscoggin.

[illegible], Esq., the enterprising treasurer of the Rumford Falls Development Company, said: "I now have the control of the Rumford Falls & Buckfield railroad. Work on the extension of the road from Canton to the Falls will be begun this fall and pushed as far as possible. A crew of men will be set at work at once."

Aroostook.

There will be a larger make of starch in Aroostook than was early predicted at the beginning of the season. Hon. F. H. [illegible] will make in the neighborhood of 1,300 tons at his seven factories.

Mr. A. E. McGuire, of [illegible] Isle, while plowing in his field the other day turned up a stone, which is an almost perfect model of a human foot. It is a number eleven, "left," and the resemblance is carried out [illegible] perfectly in every part, even to the toe joints, instep, and heel.

Cumberland.

The Brunswick *Telegraph* describes at length a collection of spoons made by Miss Clemence Yates of that town while on a tour of the old world. She endeavored to get a spoon to represent each of the typical nations, and has twenty-three specimens, curious and some of much historical and artistic interest. Egypt contributes two spoons, one bearing a palm and the other an obelisk. From Palestine comes a spoon with a crusader's cross on the tip. A gold coin forms the bowl of a spoon from Turkey, the handle of which bears a star and crescent. A ring is attached to the spoon from Finland, as is the custom in that country. Norway contributes the queerest one, the head of the handle being globular and having carved on it four faces with four eyes between them. There are spoons from Greece, Venice, Rome, Holland, Germany, Russia, France, Denmark, Ireland, Scotland, Austria, Sweden, etc., each marked with some emblem of national significance.

A strong popular movement is on foot in Yarmouth to form a corporation to purchase the Loring Flour Mills and privilege as a plant for a shoe factory. The buildings with a very little alteration will accommodate a business employing one hundred, with plenty of room to enlarge if desired. The water power is used through three wheels any one of which would do the work for such a factory. Nearly one thousand dollars has already been subscribed among the citizens without any canvass, and it is probable that the necessary amount will easily be raised. Here will be an opportunity for some enterprising shoe firm.

In the Cumberland Supreme Judicial court three candidates were admitted to practice as members of the Cumberland Bar. They were Mr. Walter D. Buck, from Harvard Law School, a resident of Orland, Mr. Albert S. Woodman, a graduate of the Bates College from the office of Hon. W. L. Putnam, and Mr. Benjamin G. Ward, [illegible], from the office of Hon. Augustus F. Moulton, of Portland.

One morning last week, while Assistant City Treasurer Sawyer, of Portland, saw James [illegible], the man arrested for the West Gorham burglary, he felt he could not be recognized him. About a month ago Mr. Sawyer had occasion one evening to go into a back room of his residence on Free street. As he did so the glow of a lamp from a window in a house separated only by a narrow alley, attracted his attention, and looking over he was surprised to see a man carefully counting over postage stamps. Every now and then he started and appeared to be in uneasy, and finally went and propped a chair against the door, then returned to work of counting the stamps. He laboriously went over five or six sheets and then make a package and Mr. Sawyer thought it would be worth while to have an officer witness the same performance. He accordingly went out and found Patrolman Granville Frank, and on their return they found the man still counting. He tied up his packages and hid them, some under the bureau and some under the sink. The officer did not think there was sufficient to warrant his arrest. Mr. Sawyer made some inquiries regarding the occupant of the room, and found that he was employed at [illegible]'s mill. Then came the one now awaiting trial for the West Gorham burglary. Mr. Sawyer thinks there is no doubt that Simpson had been engaged in some postoffice robbery.

Hancock.

The season at Bar Harbor is about over. It is announced that the last summer cottager will bid the place adieu next week.

Kennebec.

The Kennebec Central railroad (narrow gauge) running from Randolph to the National Home at Togus, is a model of its kind. The road was built and is owned by about seventy-five enterprising business men of Randolph and Gardiner. The charter for this line was granted by the railroad commissioners a little over a year ago, work on the construction of the road was commenced Oct. 13th, and trains were running by the last of June, and have been running ever since. The line is about five miles long, and starting at Randolph passes through the town of Chelsea, within about half a mile of the [illegible] Hall, the eastern terminus being at the National Home. Togus being a very important center, with no railroad connections, the business men of Randolph and Gardiner built this road, with the view to attracting the large business of Togus to these business centres, rather than from any remote hope that the railroad itself would be a source of much profit. One of the largest stockholders in the line declares that he had no fears that the road would more than pay running expenses, yet with many others he claimed that if the road was built, thousands of dollars in the way of additional trade and business would come to Randolph and Gardiner from the National Home alone, which is really a beautifully appointed city of itself, with nearly 2,000 inhabitants. The road cost about $70,000, all the stock being owned by about seventy-five residents of Gardiner and Randolph, mainly Gardiner. The passenger cars built a Wilmington, cost about $2,[illegible] each. The Baker Hot Water Heater has just been placed in the cars, while the vacuum brake is used. An extension of the line further east, is contemplated.

As a business advertisement, a Gardiner merchant advertised in one of the latest papers a scheme of giving a ticket in a gold watch to the person purchasing any goods of his store. The matter was brought to the attention of the [illegible] States Post-office Department and the circulation of the paper containing the advertisement was ordered stopped until it was removed, as it was held that the matter came under the new lottery law which has recently been passed by Congress.

While Mr. Dolloff, of Belfast, one of the workmen engaged in changing the telegraph wire to the new poles along the Maine Central, at Winthrop, was endeavoring to straighten some kinks in a wire he was changing, the wire which he used to tighten the wire slipped, letting him back from the pole and catching both thumbs in the wire. One thumb was completely cut off, and in his endeavors to extricate himself he cut the other one nearly off. The workmen who was with him was obliged to go half a mile to obtain help necessary to get him down from the perilous position at the top of the pole, and then he was obliged to walk half a mile to a house.

Knox.

The firm of Perry Brothers, Rockland, have recently added a vessel to their lime fleet, the Coss C. Meader of Boothbay. She registers about one hundred tons and was built in Bath in 1869.

There is more unhappiness to the village in Knox county than in any other place of its size in Maine. Somebody got to the strong box of the sewing society and stole twenty dollars of the women's hard-earned funds.

Lincoln.

The picturesque island town of Southport, which has attracted so many summer visitors by its primitiveness and refreshing sea breeze, possesses no town hall, town pump nor town crier; neither does it boast any physician, undertaker, grave-stone dealer, lawyer, or barber; nor on its streets and highways can be found any blacksmith shop, apothecary shop, milliner's shop, shoe dealer's establishment, jeweler's store, or fish market; nor is there any settled pastor to dispense gospel truths to the people—but still the town goes on very well. The church pulpit is occupied about every Sunday, and when the services of any professional gentleman are needed, he is summoned from the next town. The people live quietly but comfortably, and they learn to do without many things that most people count among the necessaries of life.

There is a chance for the right young man going to sea, even in these days. Seven years ago, John E. Castle, a boy of seventeen, son of A. R. Castle, of Damariscotta, secured the place of cabin boy on one of our ships bound to California. By a strict regard to duties on ship board, improving every spare moment in the study of navigation, he has risen step by step, until to-day he is first mate on an English steamer plying on the coast of Jamaica.

Somerset.

A tennis society has been organized at Skowhegan with a membership of about thirty. Arrangements have been made for holding the meetings and playing in the skating pavilion. It is the intention of the club to meet twice a week throughout the winter.

Waldo.

The agents have refused to pay the insurance on the farm buildings of Wilbert O. Whitcomb, of Waldo, that were burned about three weeks ago, and a legal contest is expected.

The *Age* says that one of Belfast's sportsmen, who went on a fishing excursion to Swan Lake, met with a queer experience. In addition to his fishing-rod he carried his gun for possibilities. He fished for a long time without meeting with any results and was about discouraged when suddenly there was a sharp bite and the end of his rod went under water, indicating that he had a large fish of some kind on his hook. While he was working his rod carefully so as not to lose the fish he heard a whirring sound and glancing up saw a partridge alight in a tree directly above him. What should he do? If he dropped the pole to get his gun the chances were he would lose his fish, but he did not hesitate long, and dropping the rod he grabbed his gun and was soon rewarded by seeing a fine plump partridge drop at his feet. He then turned to attend to the fish, but was dismayed to find that rod and all had disappeared. The only way to account for it was that the fish carried it off. Looking out on the lake he saw a ripple and slightly judging its cause to be his rod, he procured a boat and gave chase, and after a tiresome pull, in which he chased the fish all over the lake, he finally grasped the rod, and carefully working it pulled in a large trout. Of course he was the most overjoyed sportsman that ever came into town, and when he explained how easy it is for him to bag game, his friends looked on him with awe.

Washington.

While Will McGloughlin, of Baddington, was out gunning Saturday, in the vicinity of Lovejoy Hill, he saw a large bear, fired at him, but missed. Meanwhile Mr. bear was making rapid strides for the woods. That is the second time bruin has been seen in that vicinity recently.

Coasting schooners have taken the four or five hundred thousand of the last kiln of brick at Columbia Falls to Boston. Another kiln of the same size is burning for the same destination.

The three million bricks ready shipped from Columbia Falls have taken [illegible] [illegible] the great forty feet-high [illegible] bank. When pure aluminum [illegible] can be extracted at moderate cost [illegible] our beaver clay (as has once been done from other similar clay), the company's stock will advance out of reach of the present good price. The actual formation of a $20,000,000 stock company in Chicago, Ill., cash paid in and land paid for for putting in a plant for making aluminum metal vessels for naval navigation, brings such possibilities to our attention. Our clay has aluminum in highest proportion. Bricks from unexhaustible to high grade can be made, and the demand now is unlimited. Some extreme metal slag melted brick are inland in the office [illegible] fireplace at the works.

To-day, the fine barkentine "Eleanor B. Williams" will be launched from the yard of Mr. John Shaw, the veteran ship-builder, at Machias. This is the fifty-fifth vessel built under the immediate supervision of Mr. Shaw, and is one of the best, the material and workmanship being first-class. She is largely owned by New York parties, the builder and other parties here are also owners. She will be commanded by Capt. D. C. Corbett, and will probably proceed to New York as soon as fitted for sea, which will be in a short time. The vessel is 684 tons net measurement and 734 gross tonnage.

Capt. C. F. Brown, of Millbridge, after three years retirement from sea, has concluded to resume his vocation next season, and has completed arrangements for the building of a three-masted schooner of five hundred tons. The vessel will be built in the yard of Hon. John E. Cranton, of Columbia Falls.

Edward Ebemore, of Plantation No. 18, who died recently, was one of the oldest residents in the vicinity, being ninety-one years of age.

A flying report was in circulation in the vicinity of East Machias, last week, to the effect that some disaster had occurred to the new schooner recently launched at this place. There was no foundation whatever for the report, as the vessel had not sailed on her voyage at that time. The story probably grew out of the reported sinking of schooner Louisa Smith, of Thomaston.

Messrs. T. W. Cooper & Co., of East Machias, who are to furnish the frame for the vessel which will be built at the yard of Messrs. Pope, Harris & Co., have a crew at work in the woods, under the direction of Mr. M. J. Robinson, and the frame will be placed in the yard during the next two weeks.

There are 7,765 cows and bulls in Washington County, which are valued, for the purpose of taxation, at $[illegible], according to the Valuation Commission reports.

It is understood that the citizens of that part of the town of Jonesboro known as Englishman's River contemplate petitioning the Legislature to be set off from the parent town and incorporated into a separate body.

Mr. E. E. Church takes the lead for crops raised this year on the Narraguagus river. From his farm in Beddington he has harvested fifty bushels of beans, eight hundred and fifty bushels of potatoes and three hundred bushels of garden truck. In addition to these crops he has his barn well filled with grain and hay.

York.

The supervisor of the Saco public schools has made a good move, one intended to apply the doctrine that education, like charity, should begin at home. He has given orders for the preparation of a picture map of Saco and as many maps of York county for the use of the public schools. Hereafter the pupils will be as well qualified to describe the course of the Mousam and Ogunquit as of the Amazon or the Niger, and will make no more blunders in attempting to bound Waterboro or Sanford than they would in performing the same service for Mozambique or Siam.

John B. Murphy's paint store, and Frank Clement's grocery store, at Biddeford, were broken into Friday night. At the former the thieves got thirty dollars, and at the latter store a few goods. An entrance was effected in both places by breaking windows.

[illegible], General Manager, [illegible] Broadway, New York City.

To the Hon. Board of County Commissioners:

We the undersigned, citizens of Mattawamkeag and Woodville, respectfully represent that the public necessity and convenience demand that there be a ferry established across the Penobscot River at or near Charles Rush's in said Woodville. We therefore respectfully ask that you establish a ferry between Mattawamkeag and Woodville, across the Penobscot river, commencing at a point in Mattawamkeag near [illegible] a house and running to a point in Woodville near a house occupied by George McClain on the Libbey lot, so called. Also that you lay out a road from the County road to said [illegible] by a bound in Mattawamkeag, to the ferry to be established, and from the ferry landing in Woodville to the County or public road.

(Signed) CHARLES RUSH and 31 others.

Mattawamkeag, Aug. 8, 1890.

STATE OF MAINE.

Penobscot, ss. Court of County Commissioners, October Term, A. D. 1890.

Upon the foregoing Petition, it is considered by the Commissioners that the petitioners are responsible, and that they ought to be heard touching the matter set forth in their Petition, and therefore ordered, that the County Commissioners meet at Mattawamkeag House, in Mattawamkeag, in said County, on Saturday, the [illegible] day of November, A. D. 1890, at [illegible] o'clock in the forenoon, and thence proceed to view the route mentioned in said petition; immediately after which view a hearing of parties and witnesses will be had at some convenient place in the vicinity, and such further measures taken in the premises as the Commissioners shall judge proper. And it is further ordered, that notice of the time, place and purpose of the Commissioners' meeting aforesaid be given to all persons and corporations interested, by serving a tested copy of the petition and this order thereon, upon the Clerks of the town of Mattawamkeag and plantation of Woodville in Penobscot County, and by posting up attested copies as aforesaid, in three public places in each of Mattawamkeag and Woodville, thirty days at least before the time appointed for such view, and also by publishing the petition and order thereon, once a week [illegible] successively in the Bangor Daily Whig and Courier, a newspaper published in Bangor, in said County, the first publication to be at least [illegible] days before the time of said view, that all persons and corporations interested may attend and be heard if they think fit.
